Hello Parents,

With the three week closure upon us, here is a packet with school work to complete at home. It is crucial for them to work on academics during this time, and practice what all we’ve worked on in class. We’ve included various samples of schedules to follow, as well as off-screen time activities you can do with your child. Children thrive on structure and a set schedule. Designate a work area for them with little distractions if possible, and the materials they will need to complete assignments. Make sure they know the expectations you have for them each day.

As far as school work, try and complete at least 2-3 activities each day. This is a great way for you to help them continue to grow in their academics and minimize any slide they might have while out of the classroom. This can be a scary and confusing time for children, so we’re including a social story and tips to help navigate through the difficult situation.

We know this is a tough and stressful situation, so we hope this is helpful. We’re already missing seeing the smiling faces in the classroom. Thank you so much for all you do to help support your child, and thank you for everything you’ll be helping reinforce academically during this time. Feel free to contact your child’s teacher by email: gardner.jena@galionschools.org. We’ll be looking forward to seeing everyone after the closure. Stay safe and keep healthy!😊

Thanks for your help at home,
